

5th Workshop on the Molecular Aspects of Seed Dormancy and Germination

May 31-June 3, 2016, Vancouver, BC Canada

INVITATION

On behalf of the International Society for Seed Science (ISSS), we are pleased to invite you to attend the “5th Workshop on the Molecular Aspects of Seed Dormancy and Germination” that will be held at Simon Fraser University (Harbour Centre), Vancouver, Canada. Research and education in the scientific understanding of seed biology will be promoted by a host of International speakers that will highlight both applied and fundamental seed research on model and non-model species within the realm of the regulation of seed dormancy and germination, and biological processes that control the viability and vigor of the next generation. Education and outreach – for youth and the public – comprise the final session.

ORGANIZING COMMITTEE: *Allison R. Kermode, Christopher Keeling, Ying Zeng, Joan Laur, Yousry El-Kassaby.* Looking forward to seeing you in Vancouver in 2016!

Registration Fees:

ISSS Members: \$500

Non-Members: \$600

ISSS Student Members: \$300

Student Non-Members: \$400

Schedule

Second Announcement (with preliminary program): **December 2015**

On-line registration and abstract submission: **January 2016**

Final Announcement: **April 2016**

Congress website and contacts for local organizers will be available in December 2015
